Subject: Well construction and plugging evaluation
Attachments: CES Construction and Plugging Evaluation.docx

Hi Calvin and Kate,

Attached is the report on construction and plugging of the injection and monitoring wells at the CES site. It also includes an evaluation of plugging procedures for the two wells in the AoR that require corrective action.

This is the final report of our evaluation of the Class VI permit application; every part of the application and attachments has now been reviewed.

Please let us know if you have questions or comments on the attached.
